

RESUME 603

OBJECTIVE

Highly motivated, knowledgeable, dedicated, and results-driven professional to secure a position with your company as a *Heavy Equipment Operator, as a Forklift Driver, Armed Security, or as applicable*, utilizing my extensive skills, training, and experience

SUMMARY OF QUALIFICATIONS

- Over 25 years' experience in several production settings, working in various capacities throughout industrial facilities, and consistently meeting and/or surpassing all daily quotas and objectives
- Trains new personnel, delegating work orders to determine learning comprehension, monitoring all work activities for quality, expediency, and safety, conducting performance evaluations, and consulting with upper management for employee status/progress reports
- Operates forklifts, pallet jacks, pay loader, vacuum trucks, baggers, hoppers, and more
- Fully compliant with all OSHA safety laws and regulations, including compliance to all Lock-Out/Tag-Out and confined space protocols and procedures, as well as the wearing of PPE
- Adheres to and complies with ISO 9000 production standards
- Operates most hand, pneumatic, and power tools
- Strong communications, math, and problem-solving skills
- Multi-tasks effectively, learns new systems quickly, and completes all projects and assignments on time or ahead of critical deadlines
- Works well independently or collaboratively in a team environment

PROFESSIONAL EXPERIENCE

02/92 – 12/21 *Shift Utility / Furnace Operator / Mill Operator*

North American Hoganas, Niagara Falls, NY

- Read and analyzed charts, work orders, production schedules, and other records and reports to determine production requirements and to evaluate current production estimates and outputs.
- Directed and participated in start-up, shutdown and operations of hydrogen reduction furnaces, feed systems, discharge systems, and water supply.
- Monitored equipment during operation to ensure machines operating properly and no maintenance problems exist.
- Observed work and monitored gauges, dials, and other indicators to ensure that operators conform to production or processing standards.
- Conducted employee training in equipment operations and safety procedures, assigning employees training to experienced workers.
- Recommend or implemented measures to motivate employees and to improve production methods, equipment performance, product quality, or efficiency.
- Maintained operations data and prepare management reports of production results.
- Weighed or measured materials, equipment, or products to maintain relevant records, using volume meters, scales, rules, or calipers.
- Documented quantity, quality, type, weight, test result data, and value of materials or products to maintain shipping, receiving, and production records and files.
- Conducted routine and non-routine analyses of in-process materials, raw materials, environmental samples, finished goods, or stability samples.
- Moved materials to and from storage or production areas, loading docks, delivery vehicles, or containers, by hand or using powered industrial trucks or other equipment.
- Enforced safety and sanitation regulations.
- Inspected, operated, or tested machinery or equipment to diagnose machine malfunctions.
- Performed routine maintenance, such as inspecting drives, motors, or belts, checking fluid levels, replacing filters, or doing other preventive maintenance actions.

1986 – 1991 *Marine*

United States Marine Corps, Camp Lejeune, NC

- Two Military Operational Specialties: Combat Infantry and Marine Corps Security. Twice honorably discharged. Awarded several ribbons.

EDUCATION

High School Diploma

LaSalle Senior High School, Niagara Falls, NY
