

QUALITY ASSURANCE AUTOMATION ANALYST - WILLIAMSVILLE, NY

National Fuel is currently seeking a Quality Assurance Automation Analyst for an outstanding career opportunity in our Information Technology department located in Williamsville, NY. National Fuel is proud to have an inclusive workplace where diversity is valued, hard work is rewarded and promotion from within is supported. We offer exciting career opportunities for talented and ambitious job seekers and encourage you to apply today.

PRIMARY RESPONSIBILITIES:

- Administer and maintain an automated UI testing solution
- Develop, implement, and execute automated UI tests
- Train and Coach Developers/QA Analysts on proper automated UI testing
- Work with various development teams as needed

MINIMUM QUALIFICATIONS:

- Bachelor's degree in Computer Science, Management Information Systems, or related field
- Strong experience with functional UI automated testing using SmartBear TestComplete
- Knowledgeable at a software developer level, or equivalent experience in the software testing field working as a Software Engineer in Test/Automation Engineer
- Strong experience with automation of native mobile and mobile web applications
- Strong defect reporting skills: able to write clear, concise, descriptive bug reports and verify bug fixes
- Experience in environments utilizing Agile and Waterfall methodologies
- Exceptional analytical and problem-solving skills with strong technical competencies
- High level of initiative, professionalism, and leadership with strong interpersonal/communications skills
- Ability to work independently within a quickly changing environment with strict deadlines; to effectively prioritize and execute tasks
- Well organized and self-motivated with strong customer service, project, and analytical skills
- This position is hybrid and will have an on-site requirement.

PREFERRED QUALIFICATIONS:

- 5+ years prior hands-on experience in automated quality assurance/testing (Web, Desktop, and Mobile)
- Experience with multiple automated testing tools and frameworks
- Experience testing/querying SQL databases
- SAP and/or PeopleSoft testing experience, including custom PeopleTools applications
- Strong understanding of coding standards and best practices
- Experience in the Energy Sector and/or Natural Gas Distribution/Supply
- Certifications or professional training in QA/Testing/Test Automation principles
